

Important information about Windows Mobile Device Centre (WMDC) 6.1

Once you have installed WMDC 6.1 you will need to follow the procedure below in order to allow the device to connect to the PC.

Switch on the Road Angel Navigator 7000 using the slider switch on the back of the unit. Wait for the unit to start up and display the screen below.

Connect the USB lead to your PC, then connect the small USB plug into the USB port on the side of Road Angel Navigator 7000.

After a brief pause, WMDC will automatically detect Road Angel Navigator 7000.

You will then be given the option to Set up your device. As long as WMDC shows the device as  **Connected** you can then proceed with the update.
